Term 1

Week 10

From the Classrooms

Science Upper Primary

Over the last 2 weeks, the Kingdom Crushers have been learning about Electricity in science. We have learnt about the different types of Electricity, and explored current Electricity. We learnt how to make a circuit, and drew a diagram of the circuits we made.

We created a circuit to test materials we thought conduct the flow of Electricity. We were able to see which ones worked because the light would turn on and glow.

We found that the materials that worked were metal, such as foil, staples and scissors, and the materials that were not conductive were things made out of plastic or wood, such as a pencil, ruler, table, or plastic lid.

Science Whole School

In R-7 Science, we have been exploring the world of Biology. We have been looking at different insects, animals and their habitats. This week, we learnt about the life cycle of some animals and insects, and created a poster to show what we have learnt.

Dates to Remember

- | | |
|----------------------|------------------------|
| 11 th Wed | School Assembly 2:45pm |
| 13 th Fri | End Term 1 |
| | Early dismissal 2:15pm |
| 30 th Mon | Start Term 2 |
| | Student Free day |

Newsletter

Tarlee Primary school newsletters are available via email and the school website if you would like to be added onto the email list please contact the school and leave your details.

Thank you

Thank you to everyone who supported our Kyton's Hot Cross Bun fundraiser. We managed to raise \$89.60 for the school.

Also a huge thankyou to John Robbins for collecting all the Hot Cross Buns and Lamingtons and dropping them to the school so we could get them to everyone who ordered them before Easter.

School Assembly

We will be holding a School Assembly on Wednesday 11th April 2018.

It will be held in the COLA at 2:45pm. We welcome all school families and local community members to join us for this event.

Coles Sports for Schools

Thank you to everyone who has supported our school this year in the Coles Sports for Schools program. This has now finished and it is time to get any vouchers that you still have lying around into the school so we can send them of and start looking at what we can get for the school through this fantastic opportunity.

From the Playgroup

Week 9

Easter Craft this week in Playgroup. Children had a great time making Easter cards, eggs, baskets, masks and bunnies.

Glitter, pencils, googly eyes and glue

We even had scissors and cardboard too.

Fabulous colouring and a wonderful effort put in to make some beautiful items to take home.

We read a book called 'Sand' which was about where we can find sand and what we can do with it. The boy in the story even got sand in his sandwich which was 'yuk, yuk, yuk'.

Week 10

Motor skills galore this week in play group with tumble and tunnel play.

We listened to a story called 'Down They Rolled' there were heaps of animals that were playing on a hill and they

all ended up at the bottom in a big heap. There was even a turtle that ended up on a bears head.

After the story we got to play all sorts of games rolling our bodies, balls and cylinders around on ramps and gym mats.

We even rolled them down the slippery dip (and got to slide down after) it was really fun. Marie had set up tunnels too and we got to

crawl through them as we played and had to work out how to move our bodies to get around the corners and not get stuck.

Message from Tracey

Pastoral Care Worker

During week nine I enjoyed our outdoor kitchen, Kylie organised a great cooking experience for us all. Following a procedure closely the four groups of students with adult helpers produced terrific homemade hot cross buns. I'm sure the best part was eating them later!! I spoke to the students about a book I read recently which was a birthday gift, its title was Wonder. The novel had a terrific message about choosing to be kind to others. Not only in what we say but also what we do in our actions towards others. If you see the choose kind sign up in the classroom that is how we might all choose to be kind to others to build up our school community and the wider community around us.

Next term our guest speakers to parent coffee morning will be Mrs Leona Clarke and Mrs Dianne Fraser. Leona will speak about growing produce and how to preserve it. Dianne will bring along her vast array of quilts and speak about how to sew them and tips on general sewing. Both women have great practical skills and talents to share with us. It is great to welcome new parents to our friendly group, invite someone along!

As this is the last newsletter for Term 1, I wish all families and staff a relaxing, safe, holiday break.

See you next term, kindest regards

Tracey

COMMUNITY NEWS

NAB AFL AUSKICK INFORMATION

NAB AFL Auskick is an introductory program to the game of Australian Rules Football for boys & girls. The program aims at teaching participants the basic skills of Australian Football with an emphasis on fun activities conducted in a safe & friendly environment.

All boys & girls are welcome. Parents are most welcome to attend & join in & have some fun with the kids.

To find out more details about your closest centre & to register, log onto

www.play.afl/auskick

Information flyers are also available from the school reception.
